ARTICLE VI Fire Prevention and Life Safety Program

This Part may be cited, and shall be known, as the “Township of Whitehall Fire Prevention and Life Safety Program,” hereinafter referred to as the “Fire Prevention Program”.

Section 7-34. **Purpose, Applicability.**

The Fire Prevention Program is designed to reduce conditions which would pose a threat to life, property and the environment through a regular inspection and enforcement program.

Section 7-35. **Designated Official; Inspections**

1. The Township of Whitehall designates the **Fire Inspector** (“Designated Official”) as the official who shall inspect all commercial industrial, institutional and multifamily residential facilities/buildings according to an established schedule. The Designated Official may, upon reasonable belief or suspicion of hazard, inspect such facility as necessary to ensure compliance with applicable codes. The Designated Official shall be an employee under the supervision and control of the Township Mayor. The Designated Official will be the authority having jurisdiction (AHJ) pertaining to the violations and repairs of properties within the scope of the International Property Maintenance Code/2009, as amended, and all later versions adopted by the Township of Whitehall.
2. Educational uses, child day-cares, assembly uses with a fifty-person (50) occupancy load or higher, institutional uses, factories, buildings over three stories in height above grade plane, buildings of greater than twenty thousand (20,000) square feet, and high-hazard uses shall be inspected annually.
3. Other occupancies shall be inspected at two (2) year intervals
4. In buildings or structures containing more than one (1) business, a separate inspection shall be required for each business or commercial area. Any areas under the control of the owner shall also require an inspection.
5. Inspections shall be based on the fire, safety and health code requirements within the current International Property Maintenance Code/2009, as amended, and all later versions adopted by the Township of Whitehall. The person(s) designated under this part, may, during hours of operation or by agreement of the building owner/agent, enter any public or private building for the purpose of inspection under the Fire Prevention Program.

Initial fire inspections shall be based on the same requirements as the periodic inspections required to obtain a Certificate of Occupancy as defined in the International Property Maintenance Code/2009, as amended, and all later versions adopted by the Township of Whitehall. Initial fire inspections will be conducted when a change in the business owner or the occupancy within a commercial, industrial or multifamily dwelling or building occurs. A business owner or property owner must contact the Township of Whitehall Designated Official for notification and scheduling of an initial inspection before an occupancy shall be allowed to open and operate.

7. During all inspections, the Designated Official shall provide the owner/agent with a written list **or email** of code violations, if any, and a date by which all violations must be corrected. In cases where an owner/agent does not agree with a violation(s) or the required correct measures order by the Designated Official and believes he/she does meet the intent of the Code by other means, the owner/agent may file an appeal with Whitehall Township Building Code Board of Appeals as defined in the International Property Maintenance Code/2009, as amended, and all later versions adopted by the Township of Whitehall.
8. Failure to allow access for the Designated Official to perform the scheduled inspection(s) may result in violation of this Part. The Designated Official may obtain an administrative search warrant to enter any property or structure when an owner/agent denies access.
